

February 18, 1983

Mr. R. J. Wickersham
1802 W. Melville Rd.
Springfield, MO 65803

Dear Mr. Wickersham:

On Thursday, February 17, 1983, this office received a report of a pollutant discharge resembling laundry waste coming from your residence. A visual inspection by personnel from the City's Water Pollution Control Section revealed a pipe coming from your house and draining into the ditch. Please be advised that a pollutant discharge is a violation of City, State and Federal Water Pollution Control Laws and a violation of City Health Ordinances.

This office would advise you to cease discharge immediately, and to dispose of such wastes in a proper waste treatment system. Please contact the Department of Building Regulations to determine what permits might be necessary to implement the required changes. Please contact this office when the changes are complete so that an inspection can be made to determine compliance.

If you need any further assistance or have any questions, please do not hesitate to call.

Yours truly,

Karen Chandler
Water Pollution Control Inspector II
Surveillance & Enforcement
